

## Three-week round trip Diving, Mountain Climbing, Culture

should appeal to divers who would also like to experience Bali's breathtakingly beautiful scenery and its rich culture. Divers should be fairly experienced as some spots, such as Gili Tepekong, Gili Mimpang and Gili Biaha, Nusa Penida and Lembongan, are quite demanding owing to the fact that they are influenced by the currents of the Lombok Strait. This explains the extraordinary multitude of fishes and other marine life – shark, seasonal sunfish, turtle, right down to the small nudibranch. Macro photographers find their Eldorado at Scuba Seraya, adventure divers theirs at the Gilis or Penida and Lembongan, wreck freaks theirs at the Liberty. Our well-trained dive masters have been diving those sites for over ten years and are thus acquainted with their peculiarities. Menjangan with its steep walls, teeming with life, its grand overhangs, its sandy parts with shy garden eels, is another highlight of our tour. Our boats avoid the masses anchoring in the main bay and thus enable you to have a "private" dive. Gilimanuk – Secret Bay is, though quite cold, a fine place for macro-photographers. Participants of this tour get a good knowledge of the island's charms.

Arrival: Transfer to Puri Bagus Candidasa hotel

- |         |       |  |
|---------|-------|--|
| Day 1:  | 11:00 | Meeting the divemaster at the pool, checking in of equipment or renting (trips to nearby sights possible, please ask at reception)   |
